

Cross Sector Leadership Table

Inaugural meeting

Friday 18 December 2015

8:30am for 9:00am

Meadowbrook Conference Room

Griffith University Logan Campus Building L07 Room 4.07

AGENDA

Item	Paper	Time
Coffee and informal meet and greet		8:30-9:00
Welcome and introductions <ul style="list-style-type: none"> Welcome to Country (Aunty Robyn) Introductions from members 		9:00-9:30
Purpose of the Cross Sector Leadership Table <ul style="list-style-type: none"> Broader Logan Together Governance Framework 	Logan Together Governance Arrangements	9:30-9:40
The culture we want to create within the Leadership Team and within the Logan Together initiative <ul style="list-style-type: none"> Expectations of members 	Cross Sector Leadership Table – What to Expect	9:40-9:55
Reviewing membership and meeting schedule <ul style="list-style-type: none"> Discussion of gaps to fill Meeting dates for 2016 	Membership list	9:55-10:00
Morning tea		10:00-10:15
Logan Together Roadmap and action plan <ul style="list-style-type: none"> Update on progress and overview of key themes 	Roadmap – Consultation Draft (Hardcopy provided on the day)	10:15-10:30
Taking action in 2016 <ul style="list-style-type: none"> Action groups proposed RBA Framework 	Getting in and delivering on the Roadmap	10:30-10:45
Evaluating Logan Together <ul style="list-style-type: none"> Evaluation questions 	Evaluation Questions	10:45-10:55
Wrap up and meeting close <ul style="list-style-type: none"> Members welcome to stay and chat 		10:55-11:00

Logan Together

Governance Arrangements

As Logan Together matures, we expect well over 100 institutions and 1,000 people will be actively and directly involved in driving different aspects of the campaign. That's to say nothing of the tens of thousands of Logan people we hope will get involved in helping reach our community's child development goals.

To organise this many people into a coordinated campaign will require some effort. That's why we need a few different components to a governance framework:

Cross Sector Leadership Table

- The main governing and collaboration forum for Logan Together
- A management sub-committee (mainly composed of Directors of the Logan Child Friendly Consortium Trust which is the funding instrument for Logan Together) will oversee the work of the Logan Together campaign team
- Broadly based membership including parents, community leaders and Government and non-Government partners

Industry Chapters

- Topic and project based forums around core areas of work such as Education and Health
- Forums for the broad Logan Together community to come together around common interests to plan, collaborate, share information and get things done

Citizen Panels

- Groups of Logan people who want to be involved
- Some might represent particular parts of our community and some might form around specific topics
- We'll provide good support to the panels so they can get the best information on the issues affecting our kids and help lead Logan Together

Action Groups

- Groups of citizens and industry partners who come together to get a project delivered or an issue resolved
- Examples of projects that Action groups will focus on include community hubs, city-wide parenting skill campaigns or expanding playgroups
- Action groups will be coordinated through the Industry Chapters

The Detail

Cross-Sector Leadership Table

First and foremost, the Leadership Table is a **collaborative forum**, designed to bring together a wide cross-section of leaders and community members to combine effort and get things done for our kids. It will also have an important role in overseeing agreed actions and monitoring our progress.

The Leadership Table is not a typical reference group, advisory committee or governing board. It's something different - a **group of leaders** working together to make change.

This will be the group that coordinates our collaboration and integrates effort from across different service sectors and different parts of the community.

The Leadership Table will agree directions for the campaign and review progress regularly. It will also ask for and coordinate commitments from different stakeholders and stakeholder groups in a positive way, and it will hold everyone accountable for their commitments. Based on advice from the community and other stakeholders, it will decide on priorities and what Logan Together's position is on issues that arise. A sub-committee of the Leadership Table will serve as a management committee for the Logan Together Campaign Team based at Griffith University, Logan Campus.

The Leadership Table will provide advice to Governments at all levels about needs and priorities. In the future, we hope to establish a joint commissioning mechanism whereby Government, at all levels and across all relevant agencies, can consider the advice from the Leadership Table and guide investment decisions as appropriate.

Membership

We would like a broad group of leaders and community members to form the Cross Sector Leadership Table. Ideally, we could welcome leaders to fill the following categories of membership:

- Independent chair (Margaret Allison)
- Parent representatives x 4
- Community association representatives x 3
- A liaison delegate for the Aboriginal and Torres Strait Islander community
- A liaison delegate for Logan's diverse cultural communities
- Regional Executive Director Education
- Regional Executive Director Health
- Regional Executive Director Communities, Child Safety, Disability Services
- CEO of the Primary Health Network
- Senior Executive Children's Health Queensland
- Health industry stakeholders x 3 including antenatal and birthing specialist
- Education representatives across early learning, kindy and primary school
- Child and Family stakeholders x 3
- Logan City Council delegate
- Federal Government delegate
- Housing and Homelessness sector delegate
- Mental Health and Drug and Alcohol delegate
- Employment and Training delegate
- Disability sector delegate
- Delegate from the Logan Child Friendly Community Consortium Trust

Meetings

A monthly 2-hour meeting will take place (11 months of the year).

The Management Sub-committee and the Logan Child Friendly Community Consortium Trust

A management sub-committee will provide regular oversight of the work of the Logan Together campaign team and Director. This sub-committee will be comprised of Directors of the Logan Child Friendly Community Consortium Trust – which is the main funding instrument for Logan Together – plus the Pro Vice Chancellor Griffith University, Logan which is currently the host organisation for the initiative. The Chair of the Leadership Table is also a Director of the Trust. Conversely, a delegate from the Trust will also sit on the Leadership Table. The intent over the longer term is for Logan Together to establish itself as an independent entity under the auspices of the Trust.

Industry chapters

Industry Chapters will be the place for people and organisations interested in specific areas of the campaign to come together to plan and take action. They'll also provide a forum for a regular exchange of information and for debate and creativity about the Logan Together agenda.

Industry Chapters will be topic and project based and everyone who is interested in those topics and projects is welcome.

Chapters will have a list of Logan Together priorities they will be responsible for progressing. Action Groups will form around these priorities and one of the jobs of the Chapters is to keep oversight of the work of the Action Groups. We hope other great ideas will arise as part of the collaborative discussions, so the agenda will grow and develop over time.

Industry chapter convening groups

A core 'convening group' will organise meetings, run the agenda, facilitate project start ups and track their progress. This convening group will also be responsible for liaising with the Cross Sector Leadership Table to ensure a positive flow of information and input into decision-making.

We expect there will be a wider group of stakeholders who will attend some chapter meetings and not others, but the core convening group will provide the 'spine' for the Chapter.

The Chapters

We think the Chapters below make sense. Some of these will need to be new forums, but where there are existing networks that do the job, we'll ask to piggyback on those existing structures and take a little space on the agenda.

Remember, the Chapters are topic and project based, so you can be a health professional or organisational representative and turn up at the Housing Chapter meeting because there are topics discussed that are important to you.

New Chapters	Existing networks that might serve as Chapters
Education	Housing and homelessness
Health	Mental health and drug and alcohol

Child and Family Services	Domestic and family violence
Community organisations and civil society	Employment and training

Meetings

Chapters will decide on the best meeting format and frequency. We think meeting at least quarterly will be important to maintain momentum, and some Chapters will want to meet much more regularly than that. Meeting schedules and papers will be published on the Logan Together website: www.logantogether.org.au

Citizen Panels

We think there will be a number of Citizen Panels where community members can come together to help lead Logan Together. The Panels may involve members of a particular part of the community and have a wide range of interests, or they might be topic based, providing lots of involvement on a narrow range of issues.

Over time, we think each Industry Chapter might develop a corresponding Citizen Panel. We also think Citizen Panels will develop to give voice to the views of the Aboriginal and Torres Strait Islander community and different cultural groups within Logan. We'd be really keen to see a young parents Panel develop.

We would like to work with the Citizen Panels to provide regular briefings and strong support, so that members can play an active part in the life of Logan Together.

Evaluation questions

What were the whole of community (population level) results in terms of wellbeing data over 5 and ten years? What were the correlations and what appears to have been causal? Did the wellbeing of the 8 year old population improve?

At an individual level, what did this look like over time – the Logan 7Up project

What were the other related impacts in terms of wellbeing and community function that are observable? eg crime statistics, unemployment rates etc

What are the important ingredients for doing this in other communities, at different project phases?

- Community readiness
- Early stage project
- Mature stage project

What is the cost / benefit or economic analysis at a whole community / whole system level?

Using a developmental evaluation approach, what were, over time, the events that arose in the life of the project and how did the project adapt to these?

How did government act to respond to the opportunities and challenges arising from Logan Together – how flexible was it, what was hard?

A longer term question is did the 8 year olds go on to be more successful adults?
