

Berrinba's Bright Futures

A local story to read, share and dream together...

In the friendly suburb of Berrinba lived the Brightpath family, Mum, Dad, Max and Lily, who loved exploring the community just outside their door...

One sunny morning, the Brightpaths set out for a day in the community.

"Adventure starts with kindness," Mum said as she tied Lily's shoes.
"And curiosity," Dad added, lifting Max onto his shoulders.

They first walked past the school and told stories of their week.

"I am getting good at my reading," said Lily.

"I built an amazing tower in Loose Parts," explained Max.

Next they visited the Markets. Music from many countries floated through the air, drums, flutes, and cheerful singing.

Max breathed in the smell of spices.
“It’s like the whole world is cooking lunch,”
he said.

Next they visited the Berrinba Wetlands,
where the birds and wildlife made plenty of
noise.

Dad tried spotting different birds in the
trees while Mum admired the bright flowers
beside the lake.

After lunch, the family stopped at the Church. Volunteers packed colourful boxes of food.

“Can we help too” Lily asked.
“Of course,” said a volunteer. “Many hands make light work.”

That night, the house grew quiet. Stars sprinkled the sky like diamonds, and the Brightpath family drifted softly into sleep, dreaming of what their community might look like in the future.

As they slept, each Brightpath dreamed a different dream.

Maybe Mum imagined a place filled with kindness...

Maybe Dad pictured new places to explore...

Maybe Max dreamed of fun adventures with friends...

Maybe Lily imagined a bright future full of learning...

Now it is your turn!

Imagine Berrinba in the future... *What is something you hope your community will have?*

What do you dream it could look like?

Thank you for dreaming big!

I wonder what the rest of community is dreaming about tonight?
