Logan Together Leadership Table Meeting Minutes – 1 October 2026

External-facing consolidated notes, prepared from meeting discussion.

Welcome, Setting Circle, Acknowledgement of Country and Sorry Business

The meeting opened with Setting Circle, including a communal Acknowledgement of Country by all members around the circle. The co-chair observed that the pillars were evident and spoke of the importance of listening and working together to respond. Sorry business was acknowledged. There were a number of apologies due to school holidays.

Children and Family Support Program (CaFS)

An update was provided on the recent Partnership Table and the status of the Children and Family Support Program (CaFS). In the discussion that followed a number of outstanding questions were raised. Further detail will be provided to all Leadership Team members.

Stronger Places Stronger People Evaluation approach

SPSP has commissioned an evaluation to inform the next steps and information will be shared with members about this. The SPSP team will come and visit us over 3 days in November. We are one of four communities getting a visit and the opportunity of a deeper conversation. The work has been contracted to Australian Institute of Family Studies (AIFS). Logan Together's SPSP funding ceases in 2029, so this evaluation is important to support ongoing funding.

Feel Good Futures Data Collection

Members were informed that Logan Together is in the middle of the base line data collection for Feel Good Futures. This is a big exercise and has been going amazingly well. 50 community researchers are working on it, with 22 languages represented, making engaging with community very successful. The goal is to engage with 1000 children in Logan and 1000 children in Ipswich. After six weeks we have engaged with approximately 800 children in Logan and over 100 children in Ipswich. The partnerships across Logan and Ipswich are growing. It's pleasing to see a lot of young leaders are stepping into researcher roles.

Hot Issues

Gnrigomindala Karulbo:

- Advised they have not met for a while.

Community Organisations:

- There is a lot happening in the Hub space, including a scoping exercise, which is focussed on trying to improve systems, reduce the burden on reporting, improve coordination and better delivery of services. The Departments of Education and Health are trying to understand the different types of hubs and their impact.
- The cost of not investing in social infrastructure was discussed and QLD Government work in this space was identified.

Local, State and Federal Government:

- Government representatives are working with the Strong Beginnings leadership group, and we will hopefully see some good outcomes including influencing the way government does planning.
- Recent Round Table with Child Safety, Education and senior Principals discussing outcomes for children in care. Child Safety get most of their reports from Education and are working towards some intervention to try to get kids not excluded from school and influence a reduction in reports.

Logan Together Backbone Team:

- Stockland are planning a mini film in the week of 19 October, to present to their board to help communicate the unique and impact approach of Logan Together. Stockland is committed to working with Yarrabilba and using a model they call the Logan Together model to inform other developments in Australia.

Other Business

The Pay What It Takes (PWIT) movement which has been most effective in Canberra, was discussed and it was agreed it would be worth investigating more to see how it could support the Logan context.

Key Follow-up Actions

- Children and Family Support Program (CaFS) – follow up of outstanding questions.
- Items not covered today - Stronger Places Stronger People – Changes, Focus Communities Update, Logan Together Leadership Table Refresh
